### Student Learning Objective (SLO) Scoring Template

The template may be used to organize data for SLOs.

1. Add the name or identification number for each student into the worksheet. Additional rows may be added as needed.
2. Enter the student's baseline score if applicable.
3. Enter each student's established growth target.
4. Enter the final score for each student.
5. Enter if each individual student exceeded/met the growth target by answering yes or no.
6. Once all the relevant information has been entered in the worksheet, attainment of the students' growth targets on this SLO will need to be computed.

Discuss the results of your data:

After looking at the data, it states that 82% of all 1st year students either PASSED the ServSafe Certification test or if they didn't pass, they atleast grew from the pre to post test by 33%. With this data, it supports that the goal was achieved.
