### Student Learning Objective (SLO) Scoring Template

The template may be used to organize data for SLOs.

1. Add the name or identification number for each student into the worksheet. Additional rows may be added as needed.
2. Enter the student's baseline score if applicable.
3. Enter each student's established growth target.
4. Enter the final score for each student.
5. Enter if each individual student exceeded/met the growth target by answering yes or no.
6. Once all the relevant information has been entered in the worksheet, attainment of the students' growth targets on this SLO will need to be computed.

Discuss the results of your data: Besides the Graphic Design Chapter Questions, we had many class discussions on related topics. We did a whole unit on design topics, etc. Students did Constitution Day Logos, SkillsUSA Logos, and several other projects that required design/conceptual work. Students had to follow the Creative Design Process with critiquing and approval during all steps of the process. Also did a lot of preparation for the Graphic Design post-test, and used that preparation for the NOCTI Test. (NOCTI-- 11 students scored above 70 this year, and they received certificates for that. In 2015/16 we had 10 students above 70. In 2014/15 we had 7 students above 70.)
