Student Learning Objective (SLO) Scoring Template

The template may be used to organize data for SLOs.

1. Add the name or identification number for each student into the worksheet. Additional rows may be added as needed.
2. Enter the student's baseline score if applicable.
3. Enter each student's established growth target.
4. Enter the final score for each student.
5. Enter if each individual student exceeded/met the growth target by answering yes or no.
6. Once all the relevant information has been entered in the worksheet, attainment of the students' growth targets on this SLO will need to be computed.

Angela Pilbeam 2016-2017

Denatl Assisting

85% or more of students will demonstrate mastery on x-ray mounting skill on the competency exam by scoring 90% or higher.

34	Total # of Students
31	Total # who Met or Exceeded
3	Total # not meeting growth target

Final SLO Percentages:	
91%	% of Students exceeded or met growth target
9%	% of Students not meeting growth target

Discuss the results of your data:
91% of my students met the growth target. The 3 students who did not meet the growth target were not completing the x-rays skill as often as the others.
